

Body Parts!

1 Discuss

What part of the body is most important?

What part of the body do you look at first when you meet a person?

- a) their eyes b) their smile (mouth) c) their hair d) something else

2 Find and label

In groups, write down as many body parts as you can think of. Then use the word bank to label the body.

FRONT

BACK

Word bank

- | | | |
|-------------|-----------------|----------------|
| • Elbow | • Thumb | • Arm |
| • Foot/feet | • Ankle | • Knee |
| • Leg | • Belly/stomach | • Palm |
| • Chest | • Armpit | • Belly button |
| • Wrist | • Shoulder | • Hand |
| • Head | • Face | • Finger/s |
| • Toes | • Bottom/bum | • Back |

In your notebook: sketch the body and add the labels.

Hurt

2 Speaking: going to the doctor

Use the dialogue below as an example of a conversation between a doctor and a patient. Have a conversation of your own in pairs.

Doctor: How can I help you?

Patient: My knee hurts, because I fell over.

Doctor: can I look at it, please?

Patient: Ow, ow! That's painful. Please be careful.

Doctor: Oh dear, I think it is broken.

Patient: Oh no! What is going to happen?

Doctor: You must rest and not go to work.
I will send you to the hospital to get a plaster.

Patient: Thank you for your help.
