

Weak-Spot Lesson: Level Up

Name: _____

Class: _____

Date: _____

Choose your track. Look at your Lesson 7 self-check. Your weakest skill decides it. **A = inference.** **B = explaining (PEE, effects, writer's choices).** **C = word questions (vocabulary, it/this/they).** Not sure? Do B.

Part A: Do Now (4 min, everyone)

A1 The radiator clanked and hissed all night. Name the device and explain its effect.

A2 The minister's answer was evasive. Give a word that could replace "evasive".

A3 Point: Kim is proud. Evidence: "she pinned the certificate above her bed". Write the Explain only.

Part B: Spot the Liar (teams, 8 min)

Two answers would earn the mark. One is the liar. Find it, and say why.

Round 1 "The pitch was empty, the goals had no nets, and a SALE sign was tied to the fence." What can you infer?

(a) The club is selling the ground. (b) There was a SALE sign, so it is for sale. (c) The club has closed and is selling up.

Round 2 Point: Ben is worried. Evidence: "he checked the lock four times". Explain it.

(a) Checking again and again suggests he can't trust himself, so worry takes over. (b) This shows he checked the lock four times. (c) Repeating it shows the fear won't go away.

Round 3 "Her room was pristine." Which could replace "pristine"?

(a) spotless (b) neat enough (c) immaculate

Part C: Level Up (alone, 25 min). Do YOUR track. Finished? Start another.

Track A: Inference (two clues, every time)

BRONZE The front door was wide open and the cat's food bowl had not been touched. What can you infer? Name two clues.

SILVER Ellie read the message twice, put her phone in her bag, and spent the rest of lunch helping stack chairs. What can you infer about the message? Two clues.

GOLD Applications to drama club have doubled since the school musical sold out. The club has asked for a second rehearsal room. What can you infer? Two clues.

BOSS Nobody in the office mentioned Friday. A cake was hidden behind the printer, and Mr Bell's calendar had been turned to face the wall. What is going on, and which TWO clues matter most? Why those two?

Track B: Explaining (say HOW, not just what)

BRONZE Point: the café is popular. Evidence: "a queue out of the door by seven". Write the Explain only: This suggests ... because ...

SILVER Point: the teacher is angry. Evidence: "slammed the register on the desk". Explain: "This shows she is angry because she slammed the register." What is wrong with the Explain? Rewrite it.

GOLD The fog swallowed the harbour lights one by one. Name the device and explain its effect. "Creates atmosphere" scores nothing.

BOSS He said he was fine. He said it three times. Why does the writer repeat "He said"? Full PEE.

Track C: Word questions (swap test, point test)

BRONZE The puppy was timid around strangers and hid behind the sofa. Give a word that could replace "timid".

SILVER Her reply was brusque: one word, and she turned away. Give a word that could replace "brusque". Is it the same strength?

GOLD The council fixed the lights, repainted the benches and planted trees along the river. It took two years. What does "It" refer to?

BOSS Leo told his dad that he had broken the window. He wasn't angry, just disappointed. Who is "He" in the second sentence? How do you know?

Part D: Teach-Back (pairs, 6 min)

With someone from another track: 60 seconds each to teach the trick that beat your boss.

Part E: Exit Ticket (your track only, 2 marks)

Track A The bins had not been emptied and the post was piling up behind the door. What can you infer? Two clues.

Track B The kettle screamed on the stove. Name the device and explain its effect.

Track C The hikers were jubilant at the top. It had taken them six hours. Replace "jubilant", and say what "It" refers to.
